Objective:
Junior Programmer

Summary: Graduated from the technical course Informatics for the Internet by Etec Paulino Botelho in Brazil, São Carlos-SP. I have always been passionate about technology, as a young man I encountered problems with third-party cell phones and found myself very interested in solving smartphone performance and operating disorders. Therefore, combining my taste for solving technological problems and the opportunity to study, I chose to be a Programmer.

Hard skills: HTML, CSS, JavaScript, Sass, Bootstrap, Photoshop, Python, PHP, SQL, C, C#, C++.

Formations and courses:

- Informatics for the Internet integrated with high school
  Etec Paulino Botelho

- HTML and CSS
  CursoemVideo

- JavaScript and TypeScript - front-end and back-end (Full Stack) - Node, Express, noSQL, React, hooks, Redux, Design Patterns
  Udemy

- User Experience Fundamentals (UX)
  Google

- English
  App Prof. Kenny

Language Proficiency: Fluent in Portuguese and Intermediate in English.
